

YOUNG REPUBLICANS WANT  
COALITION AGAINST HYLAN.

Club goes on Record as Favoring  
Strongest Anti-Tammany Ticket  
Regardless of Party.

The Young Republican Club, through its Executive Committee, which met yesterday at the Bankers' Club, officially placed itself on record as favoring a coalition ticket against Mayor Hylan and Tammany in the coming campaign.

The members of the Executive Committee, whose President is Benjamin M. Day, include George W. Hopkins Jr., Nicholas Roosevelt, Allan W. Ames, Francis A. O'Neill, Grovernor Carroll, J. P. Brennan, Edward A. Tamm, Norman Schaff, Ruth M. Byers, Frederick C. Bellinger, Stanley H. Howe, Leonard M. Weinstein, Thomas C. Desmond, Harold G. Aron, James Gould, Runyon E. Balwin, C. S. Trunk, John A. Greene and L. E. Kimball.

Howe and passed with a slight change, read:  
"Resolved, That the New York Republican Club recommend to the Republican Party in New York City the nomination of the strongest possible anti-Tammany ticket for the coming municipal campaign without adhering strictly to party lines."

A group led by Mr. Runyon opposed fusion in any form. Another group led by Alfred C. Cox Jr. favored a complete non-partisan ticket with either a Republican or an independent heading the ticket.
